Retrieve Assignments - DropBox

Submit in the learning object Toolbox, is used to retrieve assignments that students have submitted to the DropBox.

You can also retrieve assignments from the GradeGrid.

Assignments are submitted on the learning object where the assignment information is located. To retrieve

1. Locate and click on the learning object that contains the assignment that you want to retrieve
2. Click **Submit** to open the DropBox.

3. The DropBox interface will open where you can retrieve the submissions for that assignment.
